

Class 12 Biology (NCERT) - Chapter-wise & Topic-wise Syllabus

1. Sexual Reproduction in Flowering Plants

- Flower Structure
- Pollination
- Double Fertilization
- Seed & Fruit Formation

2. Human Reproduction

- Male & Female Reproductive Systems
- Gametogenesis
- Menstrual Cycle
- Fertilization
- Pregnancy

3. Reproductive Health

- Contraception
- STDs
- Infertility
- ART

4. Principles of Inheritance and Variation

- Mendelian Genetics
- Chromosomal Theory
- Pedigree
- Mutations

5. Molecular Basis of Inheritance

- DNA Structure
- Replication
- Transcription
- Translation
- Genetic Code

6. Evolution

- Origin of Life
- Natural Selection
- Hardy-Weinberg Principle

- Speciation

7. Human Health and Disease

- Immunity
- Diseases
- Vaccination
- Cancer
- Drugs

8. Microbes in Human Welfare

- Industrial Products
- Sewage Treatment
- Biogas
- Biofertilizers

9. Biotechnology: Principles and Processes

- Genetic Engineering
- PCR
- Restriction Enzymes
- Vectors

10. Biotechnology and its Applications

- Transgenic Organisms
- Gene Therapy
- Biopiracy
- GM Crops

11. Organisms and Populations

- Population Interactions
- Adaptations
- Population Growth

12. Ecosystem

- Structure
- Energy Flow
- Food Chain
- Ecological Pyramids

13. Biodiversity and Conservation

- Biodiversity

- Threats
- Conservation Strategies
- Hotspots

14. Environmental Issues

- Pollution
- Global Warming
- Ozone Depletion
- Waste Management
